

Walther LG400-E with electronic trigger

The time is right for the E

The air rifle of the experts now with electronic trigger as „LG400-E Alutec Expert“

Proven Walther technology with electronically adjustable trigger:

The e-trigger ensures wear-free operation and exact trigger settings for many shots. This makes it an ideal rifle for ambitious sport shooters. The LED-indicator and the integrated rechargeable battery ensures the readiness to fire as well as easy and quick charging.

WALTHER E-TRIGGER – the advantages:

- Trigger pull weight can be reduced to 15 g
- Wear-free operation and exact trigger settings over many years
- Choice between two-stage mode and direct trigger mode
- Realistic dry-firing conditions (dry-fire trigger)
- Rechargeable battery
- Rechargeable via mini-USB from any PC or charger
- Charging time for 100 shots: approx. 1 min.
- Total charging time: approx. 90 min.
- Number of shots that can be fired with one battery charge: more than 5000
- LED indicators for system readiness and battery charge level
- Automatic e-trigger turnoff when not in use
